

EXECUTIVE SUMMARY

OPERATIONS · DIGITAL ARCHITECTURE · GLOBAL LEADERSHIP

Cross-functional **Operations, Digital Transformation, and Quality Leader** with **Lean Six Sigma Black Belt** certification and 10+ years of documented execution across **global supply chain sourcing, high-precision semiconductor manufacturing, automotive OEM assembly, and enterprise software engineering**. Expert in directing international procurement accounts (**\$800,000 USD/year portfolio, 20 maritime containers/quarter**), achieving **up to 75% direct cost reduction** in China and India through factory disintermediation while **remotely hiring, vetting, and directing on-site technical inspection teams**. Concurrently architecting proprietary **CMMS platforms with automated employee productivity KPI scoring**, full-stack B2B web portals, and event-driven iPaaS pipelines. Proven remote leader combining rigorous data governance with quantitative defect eradication. Trilingual: **English (C1 - Full Professional), Spanish (Native), and Portuguese (C1 - Full Professional)**.

CORE COMPETENCIES & TECHNICAL STACK

MULTI-DISCIPLINARY ATS KEYWORD MATRIX

OPERATIONS & QUALITY LEADERSHIP

Lean Six Sigma Black Belt (DMAIC), Root Cause Analysis (RCA, 5 Whys), 8D Problem Solving, FMEA / PFMEA, CAPA Governance, Statistical Process Control (SPC, Cp/Cpk), Kaizen Blitz, Poka-Yoke, ISO 9001:2015 Auditing, TÜV Standards.

SOFTWARE & DIGITAL ARCHITECTURE

Next.js, React, TypeScript, Node.js, Python, Tailwind CSS, PostgreSQL, REST APIs, Webhooks, Git/GitHub, Agentic AI Workflows, CMMS Architecture, Employee Productivity KPI Scoring Engines, B2B Web Portals.

GLOBAL SOURCING & SUPPLY CHAIN

Direct Factory Sourcing (China/India), Supply Chain Disintermediation (-75% costs), On-Site Quality Teams (CLI/PSI), Incoterms (FOB/CIF), 30/70 Milestone Contracts, TCO Modeling, WMS Inventory (99.5% Accuracy).

AUTOMATION, ERP & TELEMETRY

iPaaS (Make / Zapier / Asana), ERP ISAH Data Governance, SAP Concepts, Google Data Analytics (SQL, Spreadsheets, Dashboards), Quantitative Telemetry, High-Volume Shift Control (120 units/shift).

PROFESSIONAL EXPERIENCE

DEMONSTRATED LEADERSHIP & MEASURABLE ROI

Independent Consultant — Digital Operations, Global Sourcing & Software Architecture

Remote Global Operations · Managing Portfolios across Asia, Europe & the Americas

11/2024 - Present

100% Remote Autonomy

PILLAR 1: STRATEGIC GLOBAL SOURCING & REMOTE TEAM LEADERSHIP

- \$800K USD/Year Portfolio & 20 Containers/Quarter:** Direct end-to-end international procurement for an enterprise architectural & construction supply account, managing a continuous maritime freight pipeline of 20 containers per quarter (\$200,000 USD/quarter).
- Direct Factory Disintermediation (-75% Acquisition Cost):** Restructured the client's procurement model by eliminating domestic trading intermediaries, establishing direct manufacturer agreements with plants in China, achieving an authenticated **75% net unit cost reduction**.
- Remote Technical Team Recruitment & Leadership (China & India):** Remotely sourced, technically vetted, and managed distributed on-site inspection teams and quality engineers in mainland China and India, executing standardized Container Loading Inspections (CLI) and Pre-Shipment Inspections (PSI).
- India Strategic Sourcing Benchmark (15%–30% Margin Gains):** Spearheaded direct factory qualification across Indian manufacturing hubs, executing multi-vendor RFQ benchmarking and defect audits, securing **15% to 30% margin improvements**.
- International Trade Governance & Milestone Contracts:** Engineered purchase agreements with milestone payment structures (**30% proforma advance / 70% against certified PSI inspection and original Bill of Lading**), shielding working capital against default risks.

PILLAR 2: CUSTOM CMMS ARCHITECTURE, B2B WEB SYSTEMS & AUTOMATION

- Proprietary CMMS & Employee KPI Scoring Engine:** Architected and developed a full-stack Computerized Maintenance Management System for industrial machinery lifecycle tracking, preventive schedules, operational budgets, and an **integrated employee performance KPI scoring module**.
- Transactional B2B Platforms & Cloud Architecture:** Engineered secure web applications (Next.js, TypeScript, PostgreSQL, Tailwind) with role-based access control, automated digital quote generation, and payment gateway integration.
- iPaaS Workflow Pipelines (Make, Zapier, Asana):** Built automated event-driven webhook workflows connecting CRM, ERP, and project tracking tools, eliminating manual data entry bottlenecks and auto-generating daily operational summaries.

Operations Process, Quality & Data Specialist · HQ Pack

Eindhoven, Netherlands (Brainport High-Tech Ecosystem)

06/2025 – 07/2026

Semiconductor Lithography Packaging (ASML Specs)

- Cleanroom Data Governance in ERP ISAH:** Managed end-to-end digital diagnostic logs, routing sheets, and bill-of-materials (BOM) traceability workflows across 150+ monthly packaging modules for lithography systems (ASML, Zeiss, Boeing).
- 30% Turnaround Cycle Time via DMAIC:** Formulated standard operating procedures (SOPs), redesigned workstation ergonomic layouts, and applied 5S principles, **reducing average turnaround cycle times by 30%.**
- 22% Recurring Defect Elimination:** Led cross-functional root cause investigations (RCA, 5 Whys, Ishikawa) and deployed CAPA/FMEA controls to eliminate particulate contamination under strict **ISO Class 5 cleanroom standards**, passing TÜV Rheinland audits with 0 critical non-conformities.

Quality, Process & Data Analytics Specialist · VDL Nedcar

Born, Netherlands · Automotive OEM Manufacturing

04/2022 – 05/2025

BMW Group / MINI Cooper Platforms

- High-Volume Statistical Process Control (SPC):** Monitored automated vehicle assembly conformity at production cadence of **110–120 vehicles per shift**, analyzing electronic torque telemetry, geometric clearances, and optical sensor feeds.
- 15% Systemic Assembly Defect Reduction:** Directed cross-functional 8D problem-solving squads and process capability studies (Cp/Cpk), driving a **15% reduction in systemic line deviations** with 100% audit conformity.

EARLIER PROGRESSIVE OPERATIONS & SUPPLY CHAIN TRACK RECORD

Logistics Coordinator

Arkcohogar · 2020–2022 | Spain

Multi-site warehouse inventory oversight, cycle counts maintaining **99.5% stock accuracy**, ERP stock reconciliation, and dispatch routing.

Operations Supervisor

Ed's Paixão · 2018–2020 | Portugal

Operational shift throughput, multi-tier procurement, food waste minimization, strict HACCP compliance, and cross-cultural team management.

Commercial & Supply Specialist

E-Ceramic · 2013–2018 | Venezuela

Industrial finishing materials cost estimation, direct factory orders, freight volumetric calculations, and B2B client relationship management.

EDUCATION & CERTIFIED ACCREDITATIONS

ACADEMIC DEGREES & INTERNATIONAL CREDENTIALS

Bachelor's Degree in Operations & Managerial Processes

University Higher Education · Comprehensive Operational Leadership, Supply Chain Modeling & Process Engineering

Official Degree

Lean Six Sigma Black Belt (DMAIC)

Verify Badge ↗

International Operational Excellence Certification · Statistical Variation Reduction, DOE, SPC & Kaizen Execution.

ISO 9001:2015 Lead Quality Auditor

Certified Auditor

Quality Management Certification Board · Formal planning, audit execution, risk-based thinking & CAPA tracking.

Google Data Analytics Professional

Google / Coursera

Data manipulation, SQL querying, statistical spreadsheets, and executive visualization for evidence-based decisions.

VCA VOL Industrial Safety & Leadership

Dutch Registry

Official Dutch regulatory safety accreditation for operational leaders in high-risk plant and cleanroom environments.

Specializations: Strategic Supply Chain Management (LMU Munich) · Communication Science (Erasmus University Rotterdam)

REMOTE INFRASTRUCTURE & DIGITAL TOOLING STACK

TOOLS, COLLABORATION & DISTRIBUTED SYSTEMS

DEVELOPER & CLOUD STACK

Git, GitHub Actions, Linux CLI, Docker, Vercel, Node.js, Next.js, TypeScript, RESTful APIs, Webhook integrations, Agentic AI tooling.

AUTOMATION & IPAAS STACK

Make (Integromat), Zapier, Asana API, Webhook Data Pipelines, ERP ISAH, SAP GUI Concepts, PostgreSQL, Airtable, Minitab.

REMOTE TEAM LEADERSHIP

Asynchronous documentation, remote on-site inspection teams (China & India), multi-timezone coordination (CET & EST), Jira / Notion.

LANGUAGES & AVAILABILITY

INTERNATIONAL EXECUTIVE COMMUNICATION

Trilingual Fluency:

English (C1 - Full Professional) · Spanish (Native) · Portuguese (C1 - Full Professional)
